### Scavolini - Textrix

The video game Tetris served as the stylistic precedent for the bright rectangles and clean, handle-free lines of Michael Young's modular Textrix kitchen. Composed along horizontal axes, rectangular modules measuring 14 by 28¾ inches are topped with Naturalia, a wood-fiber and thermoset-resin composite stronger than laminate. 39-721-4431; [scavolini.com](http://scavolini.com).
